CAPABILITY SUMMARY: SandTech Solutions is an awardee of the General Services Administration’s 8(a) *Streamlined Technology Acquisition Resource for Services (STARS) III* Government wide Acquisition Contract. SandTech built a reputation supporting the

creation of the AF’s Defensive Cyber Operations weapon systems and employing them on the first AF Cyber Protection Teams. Our ability to develop and execute cyber capability grows from our foundations across the family of Cyber Weapon Systems, from the tactical to the strategic. SandTech supported the HQ PACAF’s **Mission Defense Team** effort, authoring concepts and plans for the bed-down of theater-wide enclave and mission defense forces. We supported the US Navy’s Tenth Fleet, with experience providing database design, development and implementation tasks, as well as **Cyber Excepted Service** support. Our team supports Test and Evaluation, Mission Assurance & Systems Engineering, and Agile DevSecOps for the AF’s **Platform One** program. SandTech has exceptional depth in Vulnerability Assessment and Adversary Hunt planning and execution, with background in development and maturation of AF enclave defense methods.

Our ISO®20000 IT Service Mgt System, ISO®27001 Information Security Systems, and our ISO®9001 Quality Management System, combine to spotlight, document, and manage customer risks.

SandTech’s CMMI Services Level 3 appraised management systems consolidate our Cybersecurity & IT Service experiences into a single capability that optimizes process predictability and quality.

With a current TS Facility Clearance, we can staff a diversity of cleared positions immediately.

COMPANY PROFILE: As a GSA MAS Schedule and GSA 8(a) STARS III prime contractor, SandTech is a **SBA 8(a)** program participant, a Small Disadvantaged Business, and a **Service-Disabled Veteran-Owned Small Business**. Our experience runs the spectrum from Prime contractor, to subcontractor, joint venture partner, & academic R&D Prime. SandTech is one of only a handful SBA 8(a) companies nationally that earned *all five* subcategories of GSA’s Highly Adaptive Cybersecurity Special Item Number 54151HACS on the Multiple Award Schedule.
