Founded in 2012 and headquartered in San Antonio, TX, SandTech Solutions is a **Service-Disabled Veteran-Owned Small Business** (SDVOSB) specializing in cybersecurity, IT systems engineering, and DevSecOps solutions for the U.S. Government and commercial clients. We deliver agile, secure, and cost-effective technology services that enhance mission readiness, cyber resilience, and operational performance.

CORE CAPABILITIES

CYBERSECURITY & DEFENSIVE CYBER OPERATIONS

SandTech provides comprehensive cybersecurity support, including **risk assessments**, **penetration testing**, **vulnerability management**, and **incident response**. Our experts protect mission systems with proactive defense, continuous monitoring, and secure architecture integration.

IT SYSTEMS ENGINEERING AND INTEGRATION

Our engineers build **secure network and cloud environments** aligned with **ISO 20000-1** and **ISO 27001** standards, ensuring scalability, efficiency, and continuity for clients.

DEVSECOPS AND SOFTWARE ENGINEERING

Secure **CI/CD pipelines** and **automation** accelerate delivery while ensuring compliance. Our teams embed security in the development lifecycle using modern tools, **containerization**, and **cloud orchestration** for continuous improvement.

PROGRAM MANAGEMENT AND MISSION SUPPORT

Our program managers use **CMMI Level 3 frameworks** and **agile practices** for disciplined project execution. We ensure quality, cost control, and timely delivery while prioritizing client mission objectives in every engagement.

TRAINING AND MULTIMEDIA DEVELOPMENT

We develop interactive training and multimedia content to boost readiness. Our solutions, including **2D/3D graphics** and **computer-based instruction**, engage learners and reinforce critical skills for diverse operational environments.

WHY SANDTECH?

PROVEN MISSION EXPERTISE

Our leadership and workforce bring direct operational experience supporting Air Force cyber weapon systems and mission defense environments.

AGILE AND SCALABLE

Our lean structure and DevSecOps practices enable rapid adaptation, efficient delivery, and scalable support without compromising quality.

METRICS-DRIVEN EXCELLENCE

We leverage performance data to inform decision-making, optimize outcomes, and drive continuous improvement.

TRUSTED PERFORMANCE

Our consistent "Exceptional" CPAR ratings from Government clients demonstrate our commitment to quality and mission success.

OPERATING FROM A SECURITY OPERATIONS CENTER (SOC)

near Lackland AFB and maintaining a full-time presence in Sensitive Compartmentalized Information Facilities (SCIFs), we provide **24/7 mission support** and real-time intelligence sharing.

CERTIFIED AND STRUCTURED

We apply CMMI, CMMC, and ISO-certified frameworks to deliver consistent, auditable, and high-quality results.

ISO 9001	Quality Management
ISO 20000-1	IT Service Management
ISO 27001	Information Security Management
ISO 42001	Artificial Intelligence Management
CMMI Lvl 3	Services, Development, Supplier Management
CMMC Lvl 2	Third-Party Assessor Organization Certified
